

**GEO Certified®**

# GEO Certified® Report Birchwood Park Golf Centre

Prepared by Independent Verifier, Tony Hanson

Certified by GEO Foundation: February 2020  
Valid until: February 2025

*Birchwood Park has been through some significant changes over the last cycle with the development of a health club and spa, car park runoff water treatment system and pond. The club has taken this opportunity to continue its sustainability journey using the development as an opportunity to improve existing infrastructure and implementing the latest technology to reduce the impacts of the new space.*

*Natural environment management has also continued with engagement with the Wildlife Trust and tree survey undertaken to discuss a woodland management program to improve light and airflow in wetter areas of the course and to encourage succession and improved ecological biodiversity."*

*Tony Hanson*

*GEO accredited Independent Verifier*

## Introduction

---

GEO Foundation is pleased to confirm that Birchwood Park Golf Centre has successfully achieved GEO Certified® status for its outstanding work to foster nature, conserve resources and support the community.

GEO Certified® is the most respected certification for golf, based on a credibly and transparently developed modern sustainability Standard of best practice.

Birchwood Park Golf Centre has:

1. Met the required certification criteria for sustainable golf operations
2. Successfully completed the official third-party verification process
3. Successfully passed the final evaluation by GEO Certification Ltd. (autonomous subsidiary of GEO Foundation)

GEO agreed with the conclusions of the official verification report, that, having achieved all mandatory criteria; and with specific Continual Improvement Points set for the future, Birchwood Park Golf Centre should be awarded GEO Certified® status.

For the certification period stated above, Birchwood Park Golf Centre can therefore claim a position as a leader in advancing sustainability in golf – making important contributions in protecting nature, conserving resources and strengthening communities.

The GEO Certified® Report that follows comments on the actions undertaken against the criteria, as observed by the Independent Verifier during the assurance process.

Certification is nearly always the result of a dedicated team effort resulting in many practical and valuable social and environmental results around the golf course, maintenance facility and clubhouse. These dedication and leadership qualities are an important part of ensuring the resilience of the golf facility and the golf industry into the future and also as part of society's wider effort to pull together for people and planet.

We congratulate all involved.

# Verification and Certification

---

## Verification

The official third-party audit was carried out by an independent verifier, accredited by GEO to undertake verifications of golf facilities applying for certification.

Verification involves reviewing practices and data, using the International Voluntary Standard for Sustainable Golf Operations as the guide to ensure comprehensive and consistent evaluation of performance. A detailed verification report is submitted for evaluation by GEO Certification Ltd, a subsidiary of GEO Foundation.

## Certification

GEO Certification Ltd, an autonomous subsidiary of GEO Foundation [both not-for-profit entities], undertook a full review of all content submitted through the OnCourse® online platform and the report submitted by the verifier, ensuring:

- Comprehensiveness – that activities undertaken touched on all elements of the Standard
- Consistency – that the verification approach was balanced, well weighted and with consistent depth of evaluation across each theme
- Accuracy - matching the verification report with evidence submitted by the golf facility to ensure statements and claims were accurate

GEO Foundation is an international not-for-profit founded to advocate, support and reward sustainability in and through golf. Over more than ten years, the group has worked collaboratively with dozens of golf industry associations and government and non-government organisations around the world, to help golf become a sustainability leader, striving for a net positive social and environmental impact. In addition to managing and assuring GEO Certified®, GEO Foundation also provides a suite of credible, practical programmes for golf facility management, new golf developments and golf tournaments called OnCourse®, often delivered in partnership with national golf bodies. Find out more at [www.sustainable.golf](http://www.sustainable.golf)

## Credibility

GEO Certified® is part of the ISEAL Alliance, a group of the world's foremost credible certification systems including Fairtrade, Rainforest Alliance, Forest Stewardship Council, Marine Stewardship Council and many others. GEO Foundation earned and retains full membership of the ISEAL Alliance global association following a rigorous evaluation against the ISEAL Codes of Credibility in Sustainability Standards and Certification. The ISEAL Codes cover standard-setting, assurance, and monitoring and evaluation. Find out more at [www.isealliance.org](http://www.isealliance.org)

## Verifier's Report

The Sustainability Agenda for golf covers the following themes and action areas:

| THEMES    | ACTION AREAS                                                                                                                                             |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Nature    | <ul style="list-style-type: none"><li>• Habitats &amp; Biodiversity</li><li>• Turfgrass management</li><li>• Pollution prevention</li></ul>              |
| Resources | <ul style="list-style-type: none"><li>• Water</li><li>• Energy</li><li>• Materials</li></ul>                                                             |
| Community | <ul style="list-style-type: none"><li>• Partnerships &amp; Outreach</li><li>• Golfing &amp; Employment</li><li>• Advocacy &amp; Communications</li></ul> |

Included below are the observations made by the Independent Verifier against each item in the Standard.

| NATURE                                    |                                                                          |                                                                           |                                                                                                                                                                                                                                                         |

## Golf and Sustainability

Among all sports, golf has a particularly close relationship with the environment and communities, golf facilities can bring many benefits to people and nature - from the protection of greenspace and conservation of biodiversity; healthy recreation for all ages; local supply chains; and jobs, tourism and other forms of economic value.

Adopting a more sustainable approach is also good for golf. It's about presenting a high-quality golf course and providing a memorable experience in natural surroundings. It's about being as efficient as possible. And it's about supporting the community in a range of ways that bring increased recognition, respect and contact.

At a broader level, it's important that golf credibly demonstrates its commitment, and its social and environmental value – strengthening the sport's image and reputation for the long term.

Golf facilities that participate in OnCourse®, an international sustainability initiative assured by the non-profit GEO Foundation, are taking a comprehensive approach and striving to be leaders in the community.
