

GEO Certified®

LEADERSHIP IN SUSTAINABLE GOLF

GEO
Foundation
for Sustainable Golf

About GEO Certified®

GEO Certified is the most widely regarded and credible sustainability distinction in golf, awarded to golf facilities around the world that meet the international Standard of best practice and demonstrate a commitment to a sustainability journey, looking to do ever more for social and environmental value.

The distinction is a point of pride for employees and golfers.

- ✓ **Fostering nature**
- ✓ **Conserving resources**
- ✓ **Building community**
- ✓ **Taking climate action**

**Internationally
accredited**

**Supported
across golf**

**Trusted by
communities**

Trusted and credible

For more than fifteen years, GEO Foundation for Sustainable Golf has been committed to ensuring GEO Certification is a trusted and respected mark that you can display with confidence. This has meant a wide and ongoing collaboration between national and international golf associations, people on the ground in golf, research institutes, government and non-governmental organizations, and businesses to develop and deliver a modern, credible, and accessible sustainability system for golf.

As a further measure of credibility, GEO Foundation is the only sports organization that meets ISEAL's Codes of Good Practice – a globally recognized framework for effective and credible sustainability systems.

The work of GEO Foundation and the programmes it manages and assures are supported, endorsed or promoted by a wide range of organizations in golf and in the wider sustainability movement.

Communications and outreach

GEO Certification comes with a range of communications and marketing materials to help your golf business or club make the most of the GEO Certified label. With minimal effort, you can use the toolkit of

materials provided to help attract new interest, new customers, and improve your reputation. You will also receive guidance on how to make the most of your achievement in and about the course and beyond.

Golf Du Rhin, France benefited from €100,000 worth of free publicity in various publications and television as a result of its Certification.

Process for applying

- 1 Use the OnCourse online tool to easily self-assess your actions across three areas:
 - Fostering nature
 - Conserving resources
 - Strengthening communities

Mark all actions or situations that currently apply at your golf facility. Actions required for certification are marked with green flags.

- 2 Input the last complete calendar year of data into Annual Data section of OnCourse (3-years if renewing certification).

- 3 Upload any supporting documents into Documents Library in OnCourse.
- 4 Create a minimum of three example Highlights, sharing projects or achievements at www.sustainable.golf/highlights
- 5 Request an initial review of the information in your OnCourse account by contacting hello@sustainable.golf

We may reply to clarify some data and then once it's ready, our Certification Manager will appoint a local, independent Verifier to do an on-site or virtual visit to review your work.

Programme packages

For more details, contact
hello@sustainable.golf

Certification

Once OnCourse has been completed you can apply to become GEO Certified, the most widely endorsed and credible sustainability distinction for golf.

- GEO Certified administration - £400*

Certification + Reports

Most people also request their annual OnCourse sustainability reports at this time.

- Certification + reports - £675*
- Certification + 3-years reports - £1025*

Certification Verification

An Independent Verifier is required to visit as part of the credibility assurance. The fee paid directly to the individual varies by country, scale of facility, virtual or onsite. Guide cost begins at £800 for a virtual visit.

The second certification is after three years, then every five years in most countries.

*Administration and verification fees higher for larger sites; may be discounted for small clubs; and there is some variation by country. Email for specifics.

Staying connected

- Continue using OnCourse to update any new actions and record your data to get an annual Sustainability Scorecard each year.
- Visit sustainable.golf/highlights to share any new projects you're proud of - or browse the library to get ideas.
- Tag and follow us on social media @sustainablegolf
- Stay up-to-date with the sustainable golf community and get tips and ideas through the Point of Impact and OnCourse newsletters

About GEO Foundation

GEO Foundation is an international non-profit, founded in Scotland and entirely dedicated to helping accelerate sustainability in and through golf.

The team at GEO work collaboratively across golf and beyond to help inspire, support, recognise and share leadership, and to help golf gain the recognition it deserves for its environmental commitment and social value.

We hope to see you and your golf facility joining the Sustainable Golf community, or becoming GEO Certified, helping us to grow and celebrate the positive impact golf can have!
